

Findings and Research based on my Project

1. I have completed the playlist given by the mentor to us
[Stanford CS224N: Natural Language Processing with Deep Learning](#)
2. We have been given 2 research papers to review and implement.
3. The first research paper - Style Transformer: Unpaired Text Style Transfer without Disentangled Latent Representation
4. The second research paper - Controllable Unsupervised Text Attribute Transfer via Editing Entangled Latent Representation
